

Mayank Singh Rathore

Lead DevOps Engineer / AI Enthusiast

Phone : 91551 57656 | Email : career.mayankrathore@gmail.com

LinkedIn : www.linkedin.com/in/rathoremayank | Location : Bangalore, Karnataka

SUMMARY

Seasoned DevOps Engineer with **8+ years** of expertise in architecting and implementing cloud-native solutions across AWS and Azure. Specialized in Infrastructure as Code (IaC), container orchestration with Kubernetes/OpenShift, and CI/CD pipeline automation, delivering 99.9% uptime SLAs for enterprise-grade systems.

Proven track record in cloud migration strategies, reducing infrastructure costs by 40% through optimization and automation while improving deployment frequency by 10x. Skilled in designing fault-tolerant, auto-scaling architectures, leveraging microservices patterns, service mesh implementations, and GitOps methodologies. Adept at leading cross-functional DevSecOps initiatives, implementing observability frameworks with Prometheus/Grafana/ELK stacks, and driving infrastructure modernization programs that accelerate time-to-market by 60%.

Currently expanding expertise in MLOps, LLMOps, and AIOps to bridge traditional DevOps practices with emerging AI/ML workloads.

SKILLS & TECHNOLOGY

Cloud Platforms:	Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP)
Containerization:	Docker, Kubernetes, Red Hat OpenShift, Helm, Amazon EKS, Azure Kubernetes Service (AKS)
Infrastructure as Code:	Terraform, Ansible, AWS CloudFormation, Azure Resource Manager (ARM), Puppet
CI/CD Tools:	Jenkins, GitLab CI/CD, GitHub Actions, Azure DevOps, ArgoCD, GitOps
Observability:	Prometheus, Grafana, ELK Stack, Azure Monitor, CloudWatch, Zabbix
Artifact Management:	JFrog Artifactory, Nexus Repository, Azure Artifacts
Message Management:	Kafka, IBM WebSphere MQ, ActiveMQ, RabbitMQ
Scripting/Programming:	Python, Bash, Shell, PowerShell
Databases:	MySQL, PostgreSQL, MongoDB, Redis
Middleware:	Oracle WebLogic 12c, Apache Tomcat, Nginx, IIS

WORK EXPERIENCE

Lead DevOps Engineer

Societe Generale Global Solution Centre, Bengaluru | May 2026 - present

- Lead DevOps initiatives for critical **IBM WebSphere MQ (WMQ) messaging migration** spanning **250+ applications and 25+ cross-country partners**.
- Designed and implemented **GitHub Actions (GHA) CI/CD pipelines** to modernize and replace legacy Jenkins-based workflows across **100+ applications**.

- Strengthened enterprise **monitoring, observability, and alerting** capabilities to improve platform reliability and operational visibility.
- Serve as the **single point of contact for messaging architecture**, supporting in-app and cross-application message exchanges across **IBM WMQ, Apache ActiveMQ, and RabbitMQ**.
- Drive DevOps best practices across CI/CD, infrastructure, security, observability, and messaging platforms.
- **Key Technologies:** Microsoft Azure, Azure DevOps, GitHub Actions, ARM Templates, Azure Policy, IBM WMQ, ActiveMQ, RabbitMQ, Prometheus, Grafana, SonarQube, Snyk.

Senior DevOps Engineer

Siemens Technology and Services, Bengaluru | January 2023 - May 2026

- Led **requirements gathering, solution design, and technical feasibility assessments** for enterprise cloud-native transformation initiatives.
- Architected and executed **end-to-end AWS cloud migrations** for legacy monolithic applications.
- Managed **150+ production releases** as Release Manager, leveraging **GitOps workflows and ArgoCD** to standardize and automate deployments.
- Engineered **highly available and auto-scaling infrastructure** with active-active failover architectures to improve resilience and service availability.
- Established an enterprise **artifact management and binary promotion strategy** using JFrog Artifactory.
- Developed **Python-based automation frameworks and utilities** to streamline recurring DevOps and operational activities.
- Automated AWS workload operations using **Python and Boto3**, reducing manual intervention and improving operational efficiency.
- Developed **RAG backends and API services** using Python-based **FastAPI and Flask** frameworks.
- Administered **Red Hat OpenShift / ROSA clusters** supporting **100+ containerized workloads**.
- **Key Technologies:** AWS, Terraform, OpenShift/ROSA, Kubernetes, Docker, Helm, ArgoCD, GitOps, JFrog Artifactory, Python, Boto3, FastAPI, Flask, Prometheus, Grafana, ELK, AMQ, SFTPPlus.

Senior DevOps Engineer

IBM Pvt. Ltd., Bengaluru | September 2021 - December 2022

- Served as **CI/CD Administrator and Release Manager** for a UK-based financial services client, managing enterprise deployment and release processes.
- Provisioned and managed **Azure infrastructure using Infrastructure as Code (ARM Templates)** while implementing cloud cost-optimization measures.
- Implemented automated **security scanning and vulnerability assessment** processes supporting **SOC 2 and PCI-DSS compliance** requirements.
- Designed and implemented **25+ multi-stage Azure DevOps YAML pipelines** covering build, testing, deployment, security validation, and rollback automation.
- Developed **Python-based DevOps utilities and automation** to optimize operational processes and reduce repetitive manual activities.
- **Key Technologies:** Microsoft Azure, Azure DevOps, ARM Templates, Azure Policy, Python, Prometheus, Grafana, SonarQube

Senior DevOps Engineer

Mindtree Ltd., Bengaluru | August 2020 - August 2021

- Managed **Azure DevOps CI/CD infrastructure** supporting UK retail banking clients across **8 non-production environments**.
- Automated infrastructure provisioning using **ARM Templates and Terraform**, reducing manual provisioning effort by **80%**.
- Designed and implemented a centralized **monitoring and alerting framework** using Prometheus, Grafana, and Azure Monitor.
- Implemented **disaster recovery and business continuity** procedures, including geo-redundant backup strategies.
- Supported continuous improvement of cloud infrastructure, deployment processes, monitoring, and operational reliability.
- **Key Technologies:** Microsoft Azure, Azure DevOps, ARM Templates, Terraform, Prometheus, Grafana, Azure Monitor.

DevOps Engineer

Mindtree Ltd., Bengaluru | October 2018 - July 2020

- Managed **CI/CD pipelines and on-premises private cloud infrastructure** supporting **30+ SOA-based enterprise applications**.

- Designed and maintained **Jenkins declarative pipelines with 15+ stages**, integrating automated testing, static code analysis, and security scanning.
- Administered **Nexus Repository Manager** for Maven artifacts and Docker images, supporting enterprise build and release workflows.
- Performed **Oracle WebLogic JVM tuning and performance optimization**, improving application response times by **40%**.
- Automated operational and deployment activities using **Groovy and Shell scripting**.
- **Key Technologies:** Oracle WebLogic 12c, Jenkins, SOA Suite, Maven, SonarQube, Nexus Repository Manager, Groovy, Shell Scripting.

EDUCATION

Bachelor of Technology (B.Tech.) — Computer Science & Engineering
West Bengal University of Technology | Kolkata, West Bengal
2014 – 2018 | GPA: 8.2/10

Higher Secondary — Science with Computer Science
Central Board of Secondary Education (CBSE) | Bokaro, Jharkhand
2011 – 2013 | Percentage: 78%

CERTIFICATIONS

- AWS Certified Solutions Architect – (AWS SCAA C03)
- Microsoft Certified Azure Administrator (AZ-104)
- Docker Certification
- Kubernetes Certification

ACTIVITIES & ACHIEVEMENTS

- **Project Excellence Award** - Siemens Technology and Services (FY 2023)
- IEEE Independent Author for **Y-Trees: An Extending Non-Linear Data Structure for Better Organization of Large-Sized Data** - IEEE 2017 (DOI: 10.1109/ICRCICN.2017.8234528)
- Winner (Pan-India) – **IIMT Oxford Brooked University Innovation Challenge**
- Founder – PALINOIA - CIEM, Computer Sc. Technical Club

STRENGTHS

- Strong Communication and Articulation Skills.
- Open-minded, outgoing, and patient in conversations with others.
- Leadership | Problem Solving

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
