

Mayank Singh Rathore

Senior DevOps Engineer / AI Enthusiast

Phone : 91551 57656 | Email : career.mayankrathore@gmail.com
LinkedIn : www.linkedin.com/in/rathoremayank | Location : Bangalore, Karnataka

SUMMARY

Seasoned DevOps Engineer with **7+ years** of expertise architecting and implementing cloud-native solutions across AWS and Azure. Specialized in Infrastructure as Code (IaC), container orchestration with Kubernetes/OpenShift, and CI/CD pipeline automation, delivering 99.9% uptime SLAs for enterprise-grade systems. Proven track record in cloud migration strategies, reducing infrastructure costs by 40% through optimization and automation while improving deployment frequency by 10x. Skilled in designing fault-tolerant, auto-scaling architectures leveraging microservices patterns, service mesh implementations, and GitOps methodologies. Adept at leading cross-functional DevSecOps initiatives, implementing observability frameworks with Prometheus/Grafana/ELK stacks, and driving infrastructure modernization programs that accelerate time-to-market by 60%. Currently expanding expertise in MLOps, LLMOps, and AIOps to bridge traditional DevOps practices with emerging AI/ML workloads.

SKILLS & TECHNOLOGY

Cloud Platforms:	Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP)
Containerization:	Docker, Kubernetes, Red Hat OpenShift, Helm, Amazon EKS, Azure Kubernetes Service (AKS)
Infrastructure as Code:	Terraform, Ansible, AWS CloudFormation, Azure Resource Manager (ARM), Chef, Puppet
CI/CD Tools:	Jenkins, GitLab CI/CD, GitHub Actions, Azure DevOps, ArgoCD, GitOps
Observability:	Prometheus, Grafana, ELK Stack, Azure Monitor, CloudWatch, Datadog, Dynatrace, Zabbix
Artifact Management:	JFrog Artifactory, Nexus Repository, Azure Artifacts
Scripting/Programming:	Python, Bash, Shell, PowerShell, Groovy, Java, Go
Databases:	MySQL, PostgreSQL, MongoDB, Redis, Azure SQL
Middleware:	Oracle WebLogic 12c, Apache Tomcat, Nginx, IIS
AI/ML & MLOps:	LangChain, LlamaIndex, Hugging Face, MLflow, Kubeflow, Airflow, FastAPI, TorchServe

WORK EXPERIENCE

Senior DevOps Engineer

Siemens Technology and Services, Bengaluru

January 2023 - Present

- Led requirements gathering and technical feasibility assessments for enterprise cloud-native transformation initiatives.

- Architected and executed end-to-end AWS cloud migration for legacy monolithic applications.
- Orchestrated 150+ production releases as Release Manager utilizing GitOps workflows with ArgoCD.
- Engineered highly available, auto-scaling infrastructure implementing active-active failover strategies.
- Established enterprise artifact management strategy using JFrog Artifactory with binary promotion pipelines.
- Administered Red Hat OpenShift (ROSA) clusters managing 100+ containerized workloads.
- Developed Python automation scripts using Boto3 for AWS resource provisioning, monitoring, and cost optimization.
- Built RAG (Retrieval-Augmented Generation) backend systems using Python for AI-powered document processing and knowledge retrieval.
- Key Tools: AWS, Terraform, OpenShift, ArgoCD, GitOps, Docker, Kubernetes, Helm, Prometheus, Grafana, ELK, AMQ, SFTPLUS

Senior DevOps Engineer

IBM Pvt. Ltd., Bengaluru

September 2021 - December 2022

- Served as CI/CD Administrator and Release Manager for UK-based financial services client.
- Provisioned and managed Azure infrastructure using Infrastructure as Code (ARM templates), implementing cost optimization strategies.
- Ensured SOC 2 and PCI-DSS compliance through automated security scanning and vulnerability assessments.
- Developed 25+ multi-stage YAML pipelines in Azure DevOps orchestrating build, test, deployment, and rollback automation.
- Key Tools: MS Azure, Azure DevOps, ARM Templates, Azure Policy, Prometheus, Grafana, SonarQube, Snyk

Senior DevOps Engineer

Mindtree Ltd., Bengaluru

August 2020 - August 2021

- Managed Azure DevOps based CI/CD infrastructure for UK retail banking clients across 8 non-production environments.
- Automated infrastructure provisioning using ARM templates and Terraform, reducing manual provisioning time by 80%.
- Established comprehensive monitoring and alerting framework using Prometheus, Grafana, and Azure Monitor.
- Implemented disaster recovery and business continuity procedures including geo-redundant backups.
- Key Tools: MS Azure, Azure DevOps, ARM Templates, Terraform, Prometheus, Grafana, Azure Monitor

DevOps Engineer

Mindtree Ltd., Bengaluru

October 2018 - July 2020

- Managed CI/CD pipelines and on-premises private cloud infrastructure supporting 30+ SOA-based enterprise applications.
- Engineered Jenkins declarative pipelines with 15+ stages with static code analysis and security scanning.
- Administered Nexus Repository Manager for Maven artifacts and Docker images.
- Optimized WebLogic JVM tuning parameters, improving application response times by 40%.
- Key Tools: Oracle WebLogic 12c, Jenkins, SOA Suite, Maven, SonarQube, Nexus Repository, Groovy, Shell Scripting

EDUCATION

B. Tech. in Computer Science Engineering

West Bengal University of Technology

2014–2018 | Kolkata, WB

GPA: 8.2/10

Higher Secondary in Science with Computers

Central Board of Secondary Education

2011 – 2013 | Bokaro, JH

Percentage: 78%

CERTIFICATIONS

- AWS Certified Solutions Architect – (AWS SCAA C03)
- Microsoft Certified Azure Administrator (AZ-104)
- Docker Certification
- Kubernetes Certification

ACTIVITIES & ACHIEVEMENTS

- **Project Excellence Award** - Siemens Technology and Services (FY 2023)
- IEEE Independent Author for **Y-Trees: An Extending Non-Linear Data Structure for Better Organization of Large-Sized Data** - IEEE 2017 (DOI: 10.1109/ICRCICN.2017.8234528)
- Winner (Pan-India) – **IIMT Oxford Brooked University Innovation Challenge**
- Founder – PALINOIA - CIEM, Computer Sc. Technical Club

STRENGTHS

- Strong Communication and Articulation Skills.
- Open-minded, outgoing and patient in conversations with others.
- Leadership | Problem Solving

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Name: MAYANK SINGH RATHORE

Place: BENGALURU

APPENDIX: PROJECTS

Project Title	Domain	Company	Roles and Responsibilities	Duration
EDI Cloud Migration	<i>Digitization</i>	SIEMENS	• Orchestrated complete migration of enterprise infrastructure from on-premises to AWS cloud platform • Architected and implemented comprehensive AWS infrastructure planning and deployment strategy • Established GitLab-based source control management and deployed GitOps-driven CI/CD pipelines • Designed, provisioned, and administered production-grade Kubernetes clusters • Deployed and configured enterprise DevOps toolchain including OpenShift, ArgoCD, Prometheus, Grafana, Zabbix, and Graylog • Successfully containerized and migrated 30+ mission-critical Java and C++ applications to microservices architecture • Implemented and configured secure file transfer solutions using SFTPPLUS and OPENFT • Established centralized artifact repository and streamlined release management processes • Managed end-to-end certificate lifecycle, security protocols, and regulatory compliance frameworks • Drove infrastructure optimization initiatives and integrated AI-powered automation solutions	Jan 2023 – present
Barclays	<i>Banking</i>	IBM India Pvt. Ltd.	• Automated AWS infrastructure provisioning and management through Service Catalog implementations • Engineered and maintained CI/CD pipelines on Jenkins Enterprise platform • Developed reusable automation components and contributed to Jenkins Shared Libraries • Managed change control processes and workflows through ServiceNow (SNOW) platform • Executed production deployments and orchestrated end-to-end release management cycles • Resolved complex infrastructure and application issues while managing network access controls and IP whitelisting • Administered OpenShift clusters including configuration, scaling, and operational maintenance	Sep 2021 – Dec 2022
FlowersFoods , UK	<i>FMCG</i>	Mindtree Ltd.	• Designed and implemented comprehensive Azure cloud infrastructure architecture and deployment strategies • Established monitoring frameworks and telemetry solutions for Azure services ensuring optimal performance visibility • Built and deployed Azure DevOps CI/CD pipelines for automated application delivery • Managed centralized artifact repositories and orchestrated change management workflows • Executed production deployments across customer-facing environments with zero-downtime strategies • Diagnosed and resolved infrastructure, application, and service-related issues across Azure ecosystem • Ensured adherence to regulatory standards and maintained compliance across cloud environments • Implemented and managed backup strategies and disaster recovery solutions for business continuity	Aug 2020 – Aug 2021
SITA	<i>Travel and Hospitality</i>	Mindtree Ltd.	• Administered Oracle WebLogic Server 12c infrastructure across non-production and configured user access controls and implemented RBAC policies • Developed and maintained Jenkins CI/CD pipelines for automated deployment workflows, managed build processes and optimized build configurations for enterprise applications • Established code quality standards and integrated automated quality gate enforcement • Managed artifact lifecycle and executed deployments across non-production and production environments • Engineered automation solutions using PowerShell and Bash scripting to streamline operational tasks	Oct 2018 – Jul 2020
